MAY TELL OF NEW YORK TRAGEDY

ANOTHER PRISONER EXPECTED TO CONFESS

Man Who is Alleged to Have Movement to Have Parliament Paid Assassins is Now in Custody

New York, Aug. 12.—This week promises to unravel much of the mystery that still surrounds the killing of the gambler, Herman Rosenthal, who was shot down in front of the Hotel Metropole nearly a month ago. With the coming of Sam Scheppes from Hot Springs, Ark., and a possible confession from Jack Sullivan, the district attorney's office prepared itself for new and important evidence that would corroborate the confession of "Baid Jack" Rose that Police Lieut. Becker instigated the murder. Scheppes, according to Rose, rode in the murder car uptown and later paid the gunmen for their work.

The police prosecutor has sent an officer to bring Scheppes back and also has requested the Hot Springs officials for the more than the summent of the move that the move to have parliament meet elsewhere is still on foot, but has not yet been reduced to writing.

Last week members of parliament from the maritime provinces and the pacific coast were outle serious provinces and the provinces and the pacific coast were outle serious provinces and the provinces and the provinces and the provinces are provinced to the movement to have parliament adjourn and meet in some other city. While it was very doubtful whether the government would have listened seriously to such a move, even if it had been considered necessary by any members of parliament, it is now considered unnecessary. Clarence Jameson, Conservative member for Digby, N. S., who was one of those interested in promoting the round-robia, says that the move to have province and the province an New York, Aug. 12.-This week

The total of all accounts said to be-

\$2,250 a year.

Deputy Police Commissioner Dougherty said he proposed to investigate the story of Scheppes, that the police found him in the Catskills and falled to arrest him. Dougherty said he would "break" the detectives if they northw ere found guilty.

Willing to Return.

Willing to Return.

Hot Springs, Ark., Aug. 12.—Whether Sam Scheppes, arrested here, has made any definite statement concerning the Fosenthal murder conspiracy, whether he will reveal possible knowledge of the missing slayers' hiding places before departing for the metropolis, or whether he will make his statement direct to District-Attorney Whitman are questions undetermined here. Pending the receipt of instructions from the New York district-attorney's office little is to be heard direct from the prisoner, although it is understood the prisoner, although it is understood will make no effort to resist his re-rn to New York.

Amsterdam, Holland, Aug. 12.—The North German Lloyd steamer Frankfurt, which collided yesterday with the German steamer Barmen off the Hook of Holland lightship while on the voyage to Canada from Bremen with 1200 emigrants on board, entered the Hook of Holland to-day towed by four tugs. She had 445 passengers still on board, the remainder having been transferred to the Dutch steamer June.

Rôtterdam, Holland, Aug. 12.—The German steamer Barmen put back into this port last night in a damaged con-

COLLEGE IN QUEBEC **WILL BE ABANDONED**

Staff Who Defied Superiors to Be Lifted

Montreal, Aug. 12.-Events have noved rapidly in the struggle between the priests o the St. Marie Monnoi college at St. John's and ecclesiastical authorities who interdicted them for refusing to remove their institution from that town and return to the diocese of Ste. Hyacinthe. They had been located there under Bishop Bernard's jurisdiction some years ago, before a disastrous fire destroyed their buildings and caused them to decide to move to a better site.

To-day a letter from the Sacred Consistory College at Rome, a court of last resort, was read in all the churches throughout the diocese of Montreal and college at St. John's and ecclesiastical

TY COBS STASSED.

Attacked by Three Men, Who Demanded Monsy, Injuries Are Slight.

Syracuse, N. Y., Aug. 12.—Ty Cobb was attacked and stabbed in the back by three unidentified men in Detroit to-day while on his way to the train, which was to bring him and his team mates here for an exhibition game this afternoon. Cobb's agility saved him from possible death. His injuries are slight.

Cobb was driving his automobile to the station, accompanied by his wife, when three assailants appeared from behind a wooden building and ordered the car to stop. The men were partly intoxicated, and when the machine came to a stop Cobb jumped out and began to argue with the men.

The troit then demanded money, and one of them made a. lunge at Cobb from of them made a. lunge at Cobb from of them made a lunge at Cobb from of them made a lunge at Cobb from of them made a lunge at Cobb from of the many first the pair were struggling the thug pulled at skift said indicted a wound on Cobb's actincted them, and then began a general light. After Cobb had knocked dawn two of the men, the third grabbed him around the neck. While the pair were struggling the thug pulled at skift said indicted a wound on Cobb's back. Cobb dringly to keep the matter quiet, and would not discuss it, interest was taken in the monthly meeting of the C. P. R. directors held in the board room at the C. P. R. head-

THOUSAND KILLED BY EARTHQUAKES

OVER FIVE THOUSAND REPORTED INJURED

Along the Dardanelles-Much Suffering

Constantinople, Aug. 12.—The interruption of telegraphic communication details of the disastrous seismic disturbances which occurred August 9 on both sides of the Dardanciles. No ac-curate news of the number of victims

emitted.

Everywhere in the stricken zone, there is terrible want and distress. Appeals for doctors and help are being received constantly at the capital and the government is doing its utmost to satisfy them. The hospitals here are

public buildings of the city. It is reported that a volcanic island is forming
in the Sea of Marmora.

Fugitives from Myriophito report 300
killed and 600 injured. The town was
still burning when they left Ganoshora
has been wiped out, 80 persons beins
killed and 30 injured. The wrecked
buildings took fire and most of them
were burned to the ground.

Adrianople suffered little damage,
hut Tchorlu was partially destroyed by
the earthquake and fire.

The shock was felt by warships anchored in the Dardanelles. It was atfirst attributed to Italian torpedo boats.
The captain of the American steamer
Virginia reports that the lighthouse at
Ganosh-Hora, in the Sea of Marmora,
has disappeared and that the villages
in the surrounding country are in
fiames. He was unable to anchor and
render assistance owing to the vicient
movement of the sea.

HELD CAPTIVE BY **MEXICAN REBELS**

To Represent U. S. at Funeral Prospector Tells of Escape From Prison After Being Condemned to Death

Washington, D. C., Aug. 12.—Secretary Knox has been designated by President Taft as special representative of the United States at the Juneral of Mutsuhito, the late emperor of Japan. The funeral will be held September 12.

Secretary Knox and his party will leave Washington next Thursday, and depart from Seattle on the eruiser Pennsylvania immediately upon arrival. The ship will steam direct to Yokohama.

San Francisco, Cal. Aug. 12.—A tale of adventure and suffering in Mexico was told here by William Bender, who said he had arrived on the Southern Pacific by way of Nogales, Ariz. He told of his capture as a spy; of being held prisoner by his rebel captors, who made a slave of him; of being condemned to death by a court martial; of his escape and a tramp of 400 miles to reach the United States. Bender, according to his account, went to Mexico and started on a prospecting trip in Chihuahua. In the mountains near San Diemes he was stopped and searched by rebels. They found his United States National Guard uniform and arrested him as an Am-

found his United States National Guard, uniform and arrested him as an American spy. The rebels held him captive for eight months, he said, and made him do the menial work whenever they went into a camp.

"I had heard of the foulness of Mexican prisons," he said, "but I never imagined that there could be a place so awful as those in which I was thrown. One day the guards threw into my cell two rattlesnakes, with the hope that they would kill me. I killed the snakes. The same performance was repeated a few days later.

ALBERTA PRISON

Farm of 250 Acres at Fort Saskatchewan to be Worked by the Inmates

For the satablishment of a 25-acre prison farm as Fort Saskatchewan, a suitable site has been acquired. But a small portion of the prison grounds will be laid out for intensive farming, and the cultivation of vegetables, as well as of wheat, oats and barley, will be placed in the hands of the prisoners under detention at the institution. small portion of the prison grounds will be laid out for intensive farming, and the cultivation of vegetables, as well as of wheat, oats and barbs, will be placed in the hands of the prisoners under detention at the institution. Not only agriculture, but various other forms of productive industry will be normal features of prison life; and the prisoners of the first class, who can be trusted not to abuse a measure of freedom, will be enabled not only to learn useful trades, but to live lives entirely freed from the degrading features of the prison of a generation ago. Instead of a device for converting unsophisticated youths into confirmed criminals, the institution under the direction of Hon. Arch McLean, the provincial secretary, will be designed to foster self-respect in the crime hardened.

As in Lethbridge, the prisoners will be graded into three classes, the lowest, those who are too desperate to be safely allowed any degree of liberty, the lazy and shiftless, and the "trusties" who; while performing ascelul laftor without the appearance of compulsion, will be given better fare than the others, and opportunities for recreation in the prison reading room and some social life. Young criminals, or rather youths who through a single false step, perhaps, have brought themselves into conflict with the law but are not criminals in any true sense of the word, will not be compelled to too prove the heart of the linancial section two months of Party.

that humane conditions of life are impossible. Even in the provincial jall at Lethbridge conditions are not what might be desired. Provision is made for 102, but at the present time the jall is caring for 130.

TELLS OF ASCENT

Mountaineers Driven Back by Storm When Within 300 Feet of Summit

Skagway, Alaska, Aug. 12.—The discovery of a new pass through the Alaska range, the exploration of sixty miles of country which has been a blank on the map and the verification blank on the map and the verification of the assertion that the ascent of Mount McKinley can be made along the northeastern ridge were accomplished by the Parker-Brown Mount McKinley expedition, which has arrived here on the way home from the mountain.

The expedition, headed by Prof. Herschell Parker, of New York, and Belmore Brown, of Tacoma, left Sewsard February 20. With ten days travelling 400 miles over a rough country to the northeast ridge of the mountain the ascent of the routh peak.

the northeast ridge of the mountain the ascent of the south peak was begun. An altitude of 20,000 feet was reached by the climbers.

"The most difficult part of the climb was in the zone between the 12,000 foot and the 17,000-foot altitudes," said Mr. Brown. "Above 17,000 feet the work was not difficult. Three of us, Prof. Parker, Marl Lavery and myself, made the last 3,000 feet of the climb, Arthur Aten, the fourth member of our party, remaining in our camp 17,000 feet beremaining in our camp 17,000 feet be

"We got within 300 feet of the top and could have made the summit easily within an hour but for a blinding snowstorm driven by a cold wind that forced us to retreat. The top of the mountain is unbroken and would not be difficult to surrount under favor. be difficult to surmount under favor able conditions."

Laborer Meets Death When Street Car and Work Train Collide.

ar and a work train on the Spanway ine, near the Delin street gulch in the line, near the Delin street guich in the south end. The motorman of the street car faijed to notice the work train until a few moments before the accident. The rails were slippery from a heavy rain, and he was unable to lessen the speed of his car. The heavy passenger coach telescoped a flat car on which the Italian was sitting, and Edmonton, Alta. Aug. 10.—With the electric locomotive. J. W. Banker, motorman of the passenger car, especial fall at Fort Saskatchewan the provincial secretary will carry a face further the policy of prison reform which has been inaugurated in the Lethbridge institution, and the substitution of corrective and educational settled for punitive prison discipline will be widely extended throughout Alberta prisons.

THE DUKE'S VISIT.

Vancouver Committee Recommen Granting of \$10,000 for Entertainment of Party.

themselves into conflict with the law, but are not criminals in any true sense of the word, will not be compelled to associate with old offenders.

The need for a new provincial jail has been felt for some time past. In every institution in Alberta in which prisoners are detained, there is serious overcrowding. At Fort Saskatchewan there are to-day 73 prisoners, while there is accommodation for only 34. The overcrowding has become such that humane conditions of life are impossible. Even in the provincial jail at Lethbridge conditions are not what

Denver. Aug. 12.—The body of Miss Signa Callson, about 25 years eld, was found in a clump of bushes in Aurora, a suburb of Denver, yesterday, by D. A. Talcott. Apparently the young womanhad been murdered with a blow that crushed her skull.

Her stockings had been tied around her neck and a cloth stuffed in her mouth, supposedly with the idea of preventing the possibility of an outcry. Miss Callson, who was a music teacher, was last seen Friday inght when she left the home of William Goodsell in Aurora to take a street car for Denver.

LAYMEN'S MISSION WORK.

New York, Aug. 12.—The Federation of churches, of which J. P. Morgan, General Goratio C. King and others are officers, will launch next winter a plan for the nost comprehensive use of laymen incissionary, Sunday school and social service work ever known in this city. The primary part of the plan is educational. There will be a series of "institutions for nembers and vestries, a school for the

REBEL LEADER

PEACE NEGOTIATIONS ARE AT STANDSTILL

Orozco Expressed Willingness to Leave Mexico, But Later Repudiated Proposals

Mexico City, Aug. 12.—An unexp d change in the attitude of Ger asqual Orozco prevented the rev on in the north being without an in the definition of the control of

the government promise not to pursue him, cause his arrest or persecute him in any other country he might choose to reside in. The government was well satisfied with this proposition, but later Minister Hernandez reported from El Paso that Orozco had changed his mind. Orozco did not say he would be able to induce Salazar, Rojas, Campos, Caravo and others, who have been prominently identified with his movement, to surrender, and it is believed not improbable that Salazar may be the one who has blocked negotiations. The assumption that Orozco would drny he had opened negotiations with the government is suggested as the reason for the reluctance displayed at the president's office to admit that a conference had begun.

The status of Emilio Zapata, leader of the rebels in the south, is unchanged. The government commission which went to discuss peace terms with him returned Saturday bearing a report of failure.

Orozco Denies Story.

Juarez, Aug. 12—Reading the dispatch from Mexico City that he had made overtures for peace if allowed to escape from Mexico unprosecuted, General Pasqual Orozco, commander-in-hief of the rebel forces, made flat de-

scape from Mexico unprosecuted, Genreal Pasqual Orogeo, commander-inhief of the rebel forces, made flat denial Saturday of the whole story. Still
maintaining that he had made no peace
proposals to Hernandez, minister of
omento of Madero's cabinet, who left
al Paso Friday, Orogeo declared the
whole report was a ruse on the part of
he federal government to create the
myression that he was weakening.
"I am tired of repeating that the

must be exactly carried out if you are to benefit by his treatment. Make sure of this by letting us prepare the prescription. You'll get prescription perfection

AT HALL'S

Angus Campbell & Co., Limited, 1008-10 Government Street

the Place of the Navy Blue

IT IS JUST AS MUCH IN DEMAND FOR THE COMING FALL AS ANY PREVIOUS SEASON

We are pleased to announce the arrival of a large shipment of Navy Blue Suits which were unpacked last Saturday and which are all marked at the one price of

\$25.00

Come and compare these suits—as closely as you will. The closer the comparison the more favorable your opinion of workmanship and style will be. Of course they are exclusive models that embody all the fall style features—the coats being finger-tip length and cut-away fronts. You doubtless remember our \$25 Suits of last year. Well, these easily eclipse them. There are all sizes, from Misses' 16, up to Ladies' 42 bust.

Other suits are daily arriving, including some lovely novelty models, tweeds, fancy weaves and two-tones.

SKIRTS — Those that you've been waiting for,

assembled in the Progressive party's policies, and for the first time these ideas were given to the country without the accompaniment of what he termed preposterous declarations which made them impossible for sane men to follow.

The Progressive party, he asserted.

INJURIES PROVE FATAL.

Vancouver, Aug. 12.—After clinging to life for nearly a week, living with a broken neck, which resulted from a five to the bottom of English Bay from the swimming raft Sunday, August 4.—Mr. Waldo Matheson, popular young lacrosse and swimming enthusiast, died at the General Hospital Saturday morning. Everything that tould be done to make his sufferings as light as possible had been done early in the week, although absolutely no hope was entertained of his recovery from the flist. Saturday morning a sudden sinking spell set in and the end came in a few minutes. When he died his wife and many relatives were at his bedside.

This rule is necessary as it is absolutely impossible for all the work of type-settin to be done on the day of publication. Copy for classified advertisements must be received before 2 p. m. of day of publication.

CONSERVATION OF TIMBER.

In British Columbia the chief problem respecting the conservation of timber, if one may judge from the policy of the provincial government, is its protection from the ravages of fire. So strenuous is the enactment of the last Timber the ignition unless he can prove himble for fires originating in their rights-of-way. The fire-fiend is the nightmare In discussing the proposal to amend timber, the government must now pro-out with a suggestion that the Cana-oped from the Rosenthal case in New tect it, and the law is made so strict dian Parliament be made supreme in York there is nothing better than the that the chief task of preventing dam-age by fires is thrown upon the public tion of justice in Canada. The World Times. A group of men in conversa-

doubt whether licenses to cut timber sented as seccurity for loans. As the operating lumber business requires a large amount of capital, the permanency of a license is an important desideratum. The anticipations current respecting the probable action of the New Brunswick government disclose a disposition to conserve the rengaling timber in the interests of the public rather than in the interests of speculators, the latter being all but unknown under the system of timber leases prevailing in the Maritime proviace. One of these reports is to the effect that existing leases are to be wiped out and look upon them suspiciously when pre-sented as scecurity for loans. As the its suggestion that parliament be made once, and an "empire" appeal is to be supreme in this way; made to harvest the sum. There is of these reports is to the effect that ex-isting leases are to be wiped out and If it were a matter of subjecting the ent year the governor of Ceylon, Sir new ones created, of which a chief characteristic will be that they will courts, as under the constitution of the make the areas under lease proportion.

If If were a hatter to Canadian Henry McCallum, laid the final stone in an extension of the southwest break-water, thus completing the construcate to the cutting capacity of the mills force in the World's suggestion. Can tion of one of the finest artificial has with which they are connected. The edject of such a modification of the and not a self-contained nation as is law would be to give the small operator the United States. More than this, the a chance to conduct his business on a courts in Canada have no jurisdiction parity with the larger holder and also over parliament. Nor has the Privy to prevent the accumulation of large Council, save when parliament exceeds oldings by one company. Under such legislation no monopoly of timber Privy Council are purely interpretaareas could be secured and in the oper- tive, not legislative. If parliament will ating field the opportunities of the enact laws which mean what they say smaller capitalist will be relatively and say what they are intended to pected that an announcement of the will of parliament can never be chief features of the proposed amend-thwarted by either court or council, if And see what is over the hill; There is maybe a garden of roses and

strong contrast with the policy of the government of British Columbia. In "spoils system" since last September this province an unbreakable monopoly in more than 15,000 square miles of timber has been secured, and that ride the courts. The World might very thing of their plans, do not intend to cut a stick of timber. They may hold the payment that may lead to a tower and a town, or a farm and a field where the red cattle lazily feed. And bridges are spanning the silvery streams, and pleasure boats rock in the sedge; the want to cross over the river beyond And follow the path that may lead to a tower and a town, or a farm and a field where the red cattle lazily feed. And bridges are spanning the silvery streams, and pleasure boats rock in the sedge; the want to cross over the river beyond And follow the path that may lead to a tower and a town, or a farm and a field where the red cattle lazily feed. And bridges are spanning the silvery streams, and pleasure boats rock in the sedge; the want to cross over the river beyond And follow the path that may lead to a tower and a town, or a farm and a field where the red cattle lazily feed. And bridges are spanning the silvery streams. And pleasure boats rock in the sedge; the property revive the edge.

The PERNICIOUS UMPIRE. strong contrast with the policy of the We have had enough examples of the annum on the present day value of their timber. Their rights preclude the possibility of their timber lands ever being opened for settlement, or at least until such time as they dispose of their licenses to other persons who will cut the timber and leave the land open for purchase. There is no time limit fixed within which this must be done, and the "last word in timber legislation" which discredits the pages of the statutes of British Columbia has put the most valuable of the resources of the province, But Victoria is not the present disappoints ment to the Conservatives of Victoria if them, Mr. Monk is compelled to can the street of non-support, failed to find its way to our exchange table the week that the umpire helped Breda play the ball gams, and we supposed that it had again croaked—but not so. Last Saturday we received a copy of the sheet, and it was the pages of the statutes of British Columbia has put the most valuable of the resources of the province, But Victoria is not continued upoints. annum on the present day value of ment to the Conservatives of Victoria their timber. Their rights preclude the if Hon. Mr. Monk is compelled to can-

where the value of the natural re ing them so as to produce the best results for future generations is under stood and the government of a prov lice where the people are lulled to mplacehey by the contemplation o \$2,100,000 a year added to the revenu of the province to be spent in corrupt ly administered public works, partizar favoriteisms and contractors' reward ower. The thought of the future valu of these vast resources is overcast b per centum of its present value so for is the money is spent for the good of the party and the resources of the province made to pay present-day ribute to the party's needs. That Is the sum and substance of the different between administrations and between the awakened and unawakened citizen ship of the two provinces.

THE PRIVY COUNCIL.

Several of the more recent decision of the Judicial Competition of the Privy ouncil in Canadian cases have been ment has been evoked in advocacy of Publisher. The last article is a d the 'ounding of a separate tribunal to deal, with Canadian Appeals. This excellent newspaper man F. J. Deans, suggestion has met with some appro- of Cranbrook, B. C. It closes as folsuggestion has met with some approbatton and is followed with another in effect that such a court could be constituted by the appointment of five Canadian judges and two members of the Privy Council of the United Kingdom. It is assumed that in this way the advantage of a knowledge of the force and authority of precedents as well as an intimate knowledge of local circumstances would prevail in arriving at conclusions and decisions would be made which would have the semblance of a larger measure of justice bation and is followed with another in Act that a farmer on whose ranch a circumstances would prevail in arriv-fire originates is held responsible for ing at conclusions and decisions would ignition unless he can prove him-innocent of starting the blaze blance of a larger measure of justice Railway companies are held responsi- than the public believe is the case un-

of the politicians. Having sold the the B. N. A. Act, the Toronto World is who, frightened by the prospect of points out that the B. N. A. Act has will be careful that lighted been once amended at the request of matches or cigar stabs are not careless- the Canadian Parliament and that the In New Brunswick the problem is different, and the government of that province is at present engaged in devising a new policy for the managewising a new policy for the manage-ment of its timber lands. All Crown timber lands are at present under lease per capita test is not satisfactory and ganizing another militant "league," and this time it is the "Aerial League to "operating" timber men and the existing license depends for its value as much upon its permanency as upon anything else. When it is a matter of the province by the federal government is a matter of the province by the federal government. It is a matter of the province by the federal government. ment," The matter of changes in the also rule the air, and the long lead are to continue for any length of time parliamentary representation may also already taken in aerial navigation by without unfavorable alterations being become a grievance should the increase France and Germany is shown to be a nade in their terms the banks begin to in population go on as at the present menace to the safety of the empire look upon them suspiciously when pre- rate. The World sums up the case for One million shillings are wanted at

equal to those of the greater. It is ex- mean with unequivocal distinctness the ments to the timber laws of the prov-ince will be made at the next sitting interpret its own laws, the interpretaince will be made at the next sitting interpret its own laws, the interpretation of the legislature.

All this brings the policy of the government in the present construction of the Maritime province into tion of the political parties of Canada, strong contrast with the policy of the We have had enough examples of the carts, heavy laden, roll by. einment of the Maritime province into tion of the political parties of Canada

styles are to be seen here. Some are hemstitched and others are beautifully trimmed with embroideries. Prices start as

OVERALL APRONS, made of dark prints of an excellent quality. At the price this line will be very hard to beat. They are made in the Mother Hubbard style. Price, each,

Two Lines of Fashionable Waists for Women Will Go on Sale Tuesday at \$2.90

ONE of them is a line of handsomely embroidered net Waists in ecru and white, and are made over a body of fine silk. Most of these garments have high necks and are beautifully trimmed in a fine variety of styles. Some are richly embroidered in floral designs and have yokes and trimmings of medallions, clusters of tucks, insertions, and crochet buttons, etc. A few are made with Dutch necks and we have practically all sizes.

The other is a very neat and well fitting plain tailored Shirt Waist made of a good pangee with a pale blue silk stripe running through it. It has a turndown soft collar, the sleeves are short and are finished with a shaped turn-back cuff. The fastening is pearl buttons showing through a box pleat down the centre. The very simplicity of this garment is its beauty and it will appeal to most women who love a gar-

Here's News From the Hair Goods Department

AND it tells of many little items that are of interest to most women A There is nothing unusual about the prices that we are asking for these lines but the quality of them is well worth your close attention and makes the price a small one in proportion.

HAIR ROLLS in an assortment of colors. Price, each, 35c and ... 25c HAIR SWITCHES, in a fine assortment of colors. Playmate Shoes Are the Best For the Kiddies

BECAUSE they are made to conform to nature's own plan for growth of the child's foot. No fear of deformed feet for your little one if you let it wear this class of shoe, and absolutely no fear of it having corns, bunions and other unpleasant" foot troubles. All these troubles are the outcome of cramping the little feet and putting them into shoes that are called stylish, and although good to look at are really harmful and really dangerous. Of course accidents are not taken into consideration here.

For comfort, wearing qualities and a neat appearance you cannot beat the "Playmate" brand and although they are a little more expensive than the average shoe for children they are better values and should eeceive the attention of all women who have their children's best interests at heart.

You can choose from button and lace boots in tan calf, black calf, and patent leathers, buttoned boots in smoke clkskin and white buck with either a low or high top. Propps with ankle straps in tan call, black call and patent leathers. The soles are perfectly smooth on the inside and they can be worn without sox.

All sizes for babies and misses are to be had. Ask to see

Gloves That Will Please the Most Refined Women

Parents or Guardians of children who are about to attend the Victoria Public Schools for the first time, next term, which begins August 26, will please make application as early as possible for attendance permits at the office of the Board of School Trustees, City Hall.*

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, August 12, 1887.

Mrs. Peters has opened a first-class private boarding without rooms, upstairs in Moody's Block, Yates and B A resolution was put to the public meeting on the waterworks question yesterday that the city council be called on to resign. By the time the arguments on the resolution were finished, half the ratephyers present when the meeting opened had left the hall, and the resolution was lost, eight being for, and ten against, it.

The morning paper denies that the position of postmaster is to be given to Mr. Shakespeare and has the audacity to affirm the story was manufactured in the Times office. Our contemporary is showing very bad tactics in committing itself to statements that will subsequently be shown to be false. Mr. Shakespeare is an applicant for Mr. Wallace's position, and there is a tacit understanding between our representative and the government that he will receive the appointment.

A game flourishes in Chinatown which should receive the attention of the authorities. No doubt many of our readers noticed small slips of paper pasted on a number of windows in Chinatown. The papers show the prize numbers drawn at a lottery held on Cormonant street at 3 p.m. daily. Large sums are invested in tickets by whites and Chinese, and tickets can be purchased for from ten cents to one dollar. A large swinding concern of this kind should be immediately raided by the police, as is done in the city of San Francisco.

A horse belonging to On Hing attempted self-destruction this morning by deliberately jumping into the harbor. The vehicle caught a dray just about the time the horse was ready to make the spring, and carriage and harness were left behind. The animal was rescued.

SUNDAY CONCERT.

meeting of the Y. M. C. A. swimming club will be held at the Gorge tomorrow evening at 8 o'clock. All members are requested to attend to
make preparations for the swimming on
meet which is to take place shouly.

O O O

Oak Bay Office.—To-morrow at noon the Oak Bay municipality office on
Bastion street will be permanently
closed, and removed to the new municipal hall on Oak Bay avenue. The
office at Oak Bay will open for business again on Thursday morning at
the usual hour.

O O O

Flying Legion Committees.—Meetings of committees in connection with
the reception and entertainment of the
Flying Legion are announced as follows: Finance committee, to-morrow
at 5 o'clock; executive committee,
Mednesday next at 5 o'clock seemail.

A very enjoyable concert was given
in the Gorge Park last evening. The
orchestra under the direction of Benelict Bantly, played the musical selections in a manner which drew forth
the hearty commendations of all who
heard them, and the fine singing of
Mme. Burnett was much appreciated.
Her rendering of "Lead, Kindly Light"
(Pughe-Evans), and "When Shadows
Gather" (Marshall), was such that
each in turn received a well-deserved
encore Mr. G. Gaiger played the trombone solo, "Evening Star," from Tannhauser, and Mr. D. Rife gave a cornet
solo, "The Lost Chord," both solos betary very well executed. Two well
krown hymns were sung with much
enthal or the direction of Benelict Bantly, played the musical selections in a manner which drew forth
the hearty commendations of all who
heard them, and the fine singing of
Mme. Burnett was much appreciated.
Her rendering of "Lead, Kindly Light"
(Pughe-Evans), and "When Shadows
Gather" (Marshall), was such that
each in turn received a well-deserved
encore Mr. G. Gaiger played the musical
selections in a manner which drew forth

Gat

people.

Mr. Lindridge gave a ten-minute
address, dealing with the growing conception as to the meaning of the word
"Religion," and defined religion as being a realization of the Divine nature within man, and that this must find expression and manifest itself in such practical forms as tend to the general progress of the race.

IMMIGRATION CONGRESS.

R. Hon. W. R. Ross to Preside—Opens Kelowna on Tuesday.

Hon. W. R. Ross, Minister of Lands, leaves, to-day for Kelowna, to preside at the sessions of the Western Canada Irrigation Association, of which he is president. The convention begins its business on Tuesday evening and will continue in session until Friday. In addition to the minister of lands, his colleague, Hon. Price Ellison, minister of agriculture, will attend the convention, and both will take an active partion, and both will take an active partin the deliberations.

The proceedings of this, the sixth convention of the association, will be marticipated in by several prominent men from both sides of the line. Among these will be Mr. R. M. Winslow, protection and play in the court on July 9 when that charming the strength of the sure. How could Jones appear in court on July 9 when that charming

men from both sides of the line. Among these will be Mr. R. M. Winslow, pro-vincial horticulturist; Mr. P. M. Moore, of the Dominion experimental farm at Agasstz; Dr. Samuel Fortier, chief of irrigation investigations for the United States government, who is at present doing some work for the provincial government; Mr. R. H. Campbell, Do-minion forester; Prof. Atkinson, of the Montana Agricultural college, Boze-nan; Mr. M. L. Dean, state horticulman; Mr. St. L. Dean, state horticul-turist at Missoula, Montana; Prof. C. I Lewis, of the Oregon State Agricul-tural college; Mr. E. McQueen Gray, foreign secretary of the National Irri-gation congress, Albuquerque, New D. Prittie, superintendent of forestry at Calgary; Mr. F. H. Peters, Dominion commissioner of irrigation at Calgary, and Mr. William Pearce, a former president of the association.

OTTAWA OFFICIAL HERE.

The Financial Superintendent of Po-Office Department is In the City.

endent of the Post Office department, Ottawa, is in the city on his annual

risit of inspection Probably no official of the governof Canada's growth in so convincing manner as air. Johnstone. Each year sees numerous new offices established throughout the Dominion, in fact the demand for postal facilities is so great that the department cannot keep up with it. The net revenue from the postal service has grown from \$3,421,192 in 1901 to \$9,146,952 in 1911.

the values being \$17,256,258 and \$79,514,862. In British Columbia alone the value of money orders issued has more than trebled in four years. Ten years ago there were 3,834 post offices in Canada. Last year there were 13,324.

A CURIOUS MISTAKE.

How An Error in Summons Cause Arrest of Mr Jones.

the Oak Bay police court on Friday

to be sure. How could Jones appear in court on July 9 when that charming day had gone off in Father Time's pocket three weeks before? He con-suited his lawyer. The latter observed that there might have been a mistake in the year's date and perhaps July 3, 1913 was intended. Therefore Mr. Jones had a very results.

had a year's respite—one whole year in which to prepare for the ordeal. His reason for not appearing in court, therefore, is obvious.

On Saturday the warrant for his arrest was duly served, and again he re quired to see his lawyer, Mr. Brandor But the latter was rusticating at Cor stances to observe the speed regula-tions. When he appears in court he will have to explain how, although summoned on July 11 to appear on July 9, he did not appear in court on Au-

INSPECTOR HERE.

ont Official of Inland Rever Department in the City.

Dr. J. K. Barrett, inspector of Inland Revenue for Manitoba, Saskatchewan and Alberta, with headquarters at Winand Alberta, with headquarters at Winnipeg is in the city on departmental
rusiness. Although Dr. Barrett's inand revenue inspectorate is confined to
the three northwestern provinces,
he also has general supervision
river breweries and malt houses
throughout Canada and it is in
connection with this phase of his
luties that he is in Victoria. He left
for Nahalmo on the afternoon train.

duties that he is in Victoria. He left for Nahalmo on the afternoon train.

Dr. Barrett's name has been fre-quently mentioned of late in connec-tion with the position of deputy minis-ter of inland revenue, is succession to W. J. Gerald who, upon his return from a leave of absence will be superannu-

At present the duties of deputy min-ister are being discharged by Wm Hinsworth, assistant deputy. The doc-tor is one of the veteranr of the gov-ernment service. His first appoint ment was in 1873, so he lacks but on year of forty years in office. Mr. Ger ald, the retiring deputy miniates joined the service on May 30, 1868, a he has a record of 42 years, while Mi Discoverable now acting deputy first be

iest people in the world, in the cots of some of the least wealthy, in camps buried in the mountains and the woods, in the farm houses and the city houses—everywhere, it is used and loved. It is the one in-

strument that is always welcome, the

EDISON PHONOGRAPH

While perfect in its reproduction and musical in its tone, it is not loud, strident, noisy or ear-piercing. It is the one reproducing instrument that gives just the right volume of sound to each individual selection within the compass of an ordinary room. You would grow to care more for an Edison every day. You would discover new ways to profit by its perfection of mechanical detail.

WHY NOT ORDER ONE RIGHT AWAY?

Our display rooms have just been restocked with the very latest of Edisons. Beautiful instruments they are, and well worth seeing, anyway.

her.
Capt. Dincklage said this morning that the Karnak, the first of the five new 12,500-ton steamships for the run from Europe to Pacific Coast ports, left Hamburg iast month. The big steamship will not come to Victoria and Puget Sound ports on her maiden trip, but will only go as far as Callao. The Kosmos company is building the steamships to be used upon the completion of the Panama canal. Several of them are only in the first stage of construction, and will not be ready for service until the big ditch is almost completed. The first two finished may come to the Sound via the Straits of

Inser Regular Trips.

Inser Regular Trips and East an unmber of Chilean ports for East strikes are frequent throughout that strikes are frequent throughout th Remarkable speed was made by the C. P. R. steamer Princess Charlotte, Capt. Griffin, on her excursion from Victoria to Tacoma on Saturday, and the record for the distance, which was established by the Princess Victoria in 1903 of 4 hours and 36 minutes was shattered to pieces. The Charlotte again made better time than the Vic-toria, although she did again made better the third that the toria, although she did not best her own time, covering the distance in 4 hours and 32 minutes.

Just a short time before the trip the

Charlotte was in drydock, and besides having her hull scraped and painted had several propellor blades changed. As the result of her fast trips the excursionists reached Tacoma sooner than was expected, and also returned to Victoria about an hour ahead of what the officials of the company furured. Her engine were turning over figured. Her engines were turning over

what the omeans of the company figured. Her engines were turning over at the fastest possible speed, and she made the best time since arriving on this coast from the old country.

The Charlotte took across to Fuget Sound 1,478 passengers, and brought back almost that number, several of those who celebrated the day a little too royally, being left behind. The excursionists all enjoyed themselves to the utmost, and it was with regret that they left the ship on Saturday night. What the Victorians did not see of Tacoma in the four hours at their disposal was scarcely worth seeing. Automobiles and street cars were patronized largely, and every point of interest was taken in.

being bowled off his pads before he had scored, while Galliher also very quickly followed him to the pavillon. Two wickets for two runs, A. F. R. Martin joined York, and opened with a couple of singles. York meanwhile, after scoring seven runs, was beautifully snapped up by Foote in the slips off Ismay. Goward retired in the same over, being out to another brilliant catch by Foote in the slips, whose fielding in that position was one of the

Crawford Coates had his wickets shattered by a nice ball from Wilson, who was making the ball get up very fast from the pitch, but with the advent of Captain L. S. V. York matters began to look somewhat more promising. The score at this point stood at four for eighteen, and things were going very badly for Victoria. But these two tried bats were not so easily disposed of, and Martin in particular scemed quite at home with the bowling though he found a difficulty in scoring runs from it. After scoring a couple of boundaries and two singless Captain York was bowled by Wilson, who had gone on at the pavilion end, while Gray followed soon afterwards, beaten by a great ball from the same bowler after augmenting the total he had a bowler for the visitors with a patien bowler after augmenting the total he had a bowler for the visitors with a patien scorer for the visitors with a patien Crawford Coates had his wickets shattered by a nice ball from Wilson, who was making the ball get up very (ast from the pitch, but with the advent of Captain L. S. V. York matters seemed quite at home with the bowling though he found a difficulty in scoring runs from it. After scoring runs from the same capital ricket was witnessed. In which Victoria proved themselves to be a shade between the from the same bowler after augmenting the total by scorer for the visitors with a patient so the gaine. Pilkington was top scorer for the visitors with a patient so the gaine. Pilkington was top scorer for the visitors with a patient so the gaine. Pilkington was top scorer for the visitors with a patient so the went in first and did not leave until very near the end of the innings. one run. The ball with which Ismay bowled Major would have baffled any-body. It swung in inches from the off stung and approved the middle peg in an manner that made the batsman rub his eyes and wonder. Leonard stayed until 85 was on the borad, of which be contributed four. He gave Pegler an contributed four. He gave Pegter an easy chance at deep square leg, and the latter was nothing fouth. H. Arthur put a lightle heart into the speciators with an attractive innings of 18, which included a six a few areas. Included a six, a four and a couple of twos. He was out l.b.w. to Wilson, who was bowling exceptionally well, and the innings thus came to a close for the lowest total that Victoria has scored this season—105.

Wilson had an excellent average: O. M. R. W.

E. W. Ismay had very hard luck on several occasions, just missing the stump with the batsmen beat, and he got four wickets for 54 runs, bowling

two maidens.

H. A. Ismay and Ward gave the Albions a fine start towards victory with a spiendid first wicket stand. Ismay, particularly, was very confident, and scored rapidly from the start. He had reached, a corre when his less according scored rapidly from the start. He had reached a score when his less aggressive partner had only managed to tap off a couple of singles. Ismay scored five fours in his attractive innings of 28, when he was caught by Galliher at cover. But it is probable that the Albions owe their subsequent victory more than a little to Ward, whose stillful and extend betting through the Response to the control of the Coak Bay v. Garrison match played at Oak Bay v. Ismay, Goward retired in the same over, befing out to another brilliant H. A. Ismay, c. Galliher, b. W. York 28 catch by Foote in the slips, whose fielding in that position was one of the many good features of the match.

Crawford Coates had his wickets

Barrington Foote, c. and b. L. York 8

In the Albion venture the bowling of Horton proved too many for most of the batsmen, though Bayley 25 and Cantwell and Covey 20 aplece were successful in manipulating his nicely pitched medium paced deliveries. The Albions reached 129 before the las man succumbed to Horton, and the visitors won by 19 runs.

Cowichan vs. Saanich,

Cowichan easily accounted for Saan-ich af Royal Oak on Saturday after-noon, and thanks to a great innings by H. C. Martin, the fine bowling of or the covering of the whole side, added another victory to the many they have gathered this season. As a tribute to the excellent work of the men in the field it is only necessary to state that three Saanic's men were run out.

Oak Bay vs. Garrison.

his guns admirably, and eventually got six wickets. Schwengers and Speak were mowing the military down when time was called, the former having then four wickets for 16 and the latter

Lowest Total on Record Lowest Total on Record.

The Men's Own broke all kinds of records in cricket history on Saturday afternoon when they all went out before Colwood for a total of only three runs, all made by one man. For the rest there were three ducks and no extras. The team went out in fifty balls and the averages of the two bowlors who did the slaughter are worth a couple of lines to themselves.

Vancouver, Aug. 12.—Any doubt about the fate of the Minto Cup which about the fate of the Minto Cup which carries with it the world championship in lacrosse; was set at rest Saturday when Westminster, the former champions, won from Vancouver, the eighth game out of a total of ten played this season. The Vancouver champions lost with a score of 8 to 4 to the Royal City men. The game was played at Oneon's Park in New West. lost with a score of 6 to 4 to the Royal City men. The game was played at Queen's Park in New Westminster, and was the quietest lacrosse event of the season, so far as fist fighting was concerned. Not a man was rufed off for rough play until the third quarter, and even then the play was not particularly disgraceful, considering the Jack Johnson stunts that are done on some occasions.

Westminster did not let the game drag before putting it on ice for themselves. The Reds tallied two goals during the first quarter and Vancouver was never able to catch up till the end of the third quarter, when it looked as if the Terminal City Boys might have a chance. But Westminster played like demons in the last quarter and put dicwn two more. Vancouver falling to score at all.

The star performer of Westminster CROQUET TOURNEY OPENS.

score at all.

The star performer of Westminster vas Johnny Howard, who, though a defense player, extended himself in wonderful style and worked all overthe field. Taking it all around, there was no question but that Westminster had the edge on Vancouver, whose defense players showed lack of organization.

ing loos, were flung into the air with the wildest abandon, and several aged fans were threatened with an attack of apoplexy.

Westminster and Vancouver teams.

With the former they will play special challenge events for the possession. With the former they will play spe-cial challenge events for the possession of the Minto Cup and will go on with Vancouver in exhibition matches.

SIDE ORDER OF SONGS AT BALL GAME

Noted Baseball Quartet May

or the visitors seemed almost twouldn't be fair to commend any particular members of the Victoria team. They all played splendidly to bether, although in the early part of the game their passing was a little loose.

The game was clean considering that upon the outcome of it depended Victoria's chance of winning the champlonship of Canada. One Vancouver man, W. Davis, received a nasty cut on the head, which necessitated his retirement, but other than that the injuries were all of a minor nature.

Goal Summary.

First quarter—Vancouver, Crookall, it minutes.

Goal Summary.

First quarter—Vancouver, Crookall, it minutes.

A. A. Course has been received for the Flumerfelt cup fours, to be rowed at the J. B. A. A. annual regatta over the Gorge course on August 31. The following are the mach that the injuries were all of a minor nature.

Goal Summary.

First quarter—Vancouver, Crookall, it minutes.

Sacond quarter—Vancouver, Fiere—

Anxiety has been expressed as to the sacond of Yohe's absence from yester—state of Yohe's absence

Anxiety has been expressed as to the cause of Yohe's absence from yesterday's game, and many had set it down to the fact that Bill had left for San Francisco. But there is no chance, other than an accident, of Yohe leaving the Bees until the close of the season, according to Wattelet, who states that he cannot be recalled by 'Frisco until the present season is over. Bill strained a muscle in his leg in the second game at Vancouver Saturday, and his place was taken in the last four innings by Kaufmann. Smith played third Sunday, and as can be seen from the box score he didn't make a success of it.

There will be two ball games of Wednesday, the benefit game for Grindle starting at 2.30, and the second game at 5 o'clock.

Umpire Van Haltren is back with us that is all right because Van is as pop-ular here as any umps in the league but it is funny that Victoria doesn't see more of Toman.

It is possible that Tacoma and Vic-toria may play here on Thursday, but the Tacoma club won't agree to a fur-ther stay on the local grounds.

SERGT. COLLINGS WINS

CHALLENGE FOR MANN CUP.

Winnipeg, Aug. 12.—The C. N. A. Lacrosse Club challenge for the Mann Cup has been forwarded to the trustees by D. W. F. Nicholls, president of the Winnipeg Amateur Lacrosse League, and from the present outlook the local amateurs will be playing for the world's amateur honors at the coast some time in September. The Vancouver Athletic Club, present holders of the cup and the title, are willing to play, and if the trustees accept there is nothing to stand in the way of a series. Winnipeg, Aug. 12.-The C. N. some twenty-four institutes with a total membership of over 1,200. The object of the institutes is to help women on the farm by holding meetings for the spread of knowledge and to encourage co-operation in farmmatters.

An announcement that has received with more than usual interest in Vancouver is that of the engagement of Miss Flora Oppenheimer, daughter of the late David and Mrs. Oppenheimer, early residents of this city, and Mr. David Hirsh, of the firm of McIntyre & Hirsh, barristers of New York, Mr. Hirsh was formerly district attorney of New York and is well and prominently known. In the many congratulatory messages being received by Miss Oppenheimer not a few have gone from Vancouver, where her father, the late Mr. Oppenheimer, has many friends. The marriage will take place in New York early in September. ceived with more than usual interest

St. Mary's church, Oak Bay, was St. Mary's church, Oak Bay, was last Thursday evening the seene of a pretty wedding, when Rev. Mr. Barton united in marriage Mary Isabella, youngest daughter, of Mr. and Mrs. R. T. Williams, View street, and William Arkley Davis, elder son of Mr. and Mrs. Wm. Davis, elder son of Mr. and Mrs. Wm. Davis, elder son of Mr. and Mrs. Wm. Davis, sidere street. The bride was becomingly gowned in white liberty satin with overdress of richly embroidered net, wearing the convential vell and orange blossoms and carried a shower of bridal roses and lilies of the valley. Miss Elizabeth Williams, sister of the bride, acted as bridesmaid, while Miss-Elcanor Jesse, nicce of the delighted with her of the valley. Miss Elizabeth Williams, sister of the bride, acted as bridesmaid, while Miss-Elcanor Jesse, nice of the groom, made a dainty little flower girl. The groom was supported by Mr. E. J. Davis and the bride was given away by her father. Mr. R. T. Williams, After the ceremony the wedding party were driven to the home of the bride's aunt. Mrs. W J. Palmer. Monterey avenue, where an impromptu reception was held, and the happy couple were the recipients of congratulations from their immediate friends and relatives. They left by the midnight boat for Vancouver and other British Columbia points of interest, where they will spend the honeymoon, and on returning will take up their residence at the Field apartments. The gift of the groom to the bridesmaid an amethyst necklace, to the bridesmaid an amethyst necklace, to the little flower girl a pearl crescent boooch, and to the best man a set of gold curf links. The bride travelled in a smartly tailored suit of navy serge with large cream Milan straw hat draped with satin. The newly-married couple were the recipients of a number of handsome and costly presents.

On Tuesday last a pretty weedling the properties, and that the heartiness was only a mask, and that the reality beneath the mask was rather more cold and the history and relatives. The week was rather more cold and the history and relatives. The week was rather more cold and the heavy sale in the woor three weeks I.

Now please consider what an asset of gold curf links. The bride travelled in the relative beneath the mask was rather more cold and the the heartiness was only a mask, and that the heartiness was only a mask, and that the heartiness was only a mask, and that the reality beneath the mask was rather more cold and the happy couple were the recipients from the links was rather more cold and the happy couple were the recipient of the links was rather more cold and the happy

ROYAL COMMISSION OPENED SESSION

ARE INQUIRING INTO MATTERS MUNICIPAL

A Number of Gentlemen Give Their Views on Civic System Prevailing Here

The royal commission appointed by he government to inquire into matters fleeting municipal government began in the executive chamber. egislative building, this morning at 10 on municipal government which appears in full on another page of the Times. Upon the conclusion of his paper Mr. Higgins was thanked by the compulsioners.

Mr. Robertson, the city solicitor, the next witness, suggested that the period of fifteen days' notice of local improvement work and the six publications of notice in the daily papers which are at present called for in this respect, should be shortened, as this entailed an unnecessary expense for the city.

anoun be snortened, as this entailed an unnecessary expense for the city.

The question of greater municipal control over street railways to compel them to operate cars which are suitable was also introduced by the solicitor, and the limitation of the powers of public utility companies in the tearing up of the streets was brought up. These companies, said the speaker, should be given only a limited time to finish their work, and it was a shame for the streets to be torn up continually for quite unnecessarily lengthy periods. In this connection the speaker referred particularly to the Gas Company, the Telephone Company, the B. C. Electric Railway Company, and the Esquimalt Waterworks Company, and, although by their charters all of these companies were compelled to put the streets back in the same good condition as they had found them, this was virtually an impossibility.

Mr. Keary at this time suggested

C. Electric Railway Company, and the Esquimalt Waterworks Company, and although by their charters all of these companies were compelled to put the streets back in the same good condition as they had found them, this was virtually an impossibility.

Mr. Keary at this time suggested that it might be absolutely necessary for any of these companies to tear up a street on behalf of some public improvement, to which Mr. Robertson replied that he considered that they should be obliged to show some special cause for doing so before they should be permitted.

With regard to the regulation of places of amusement, the city solicitor referred to Section 3, Sub-section 105
OLIGITATION THE COLOR OF THE COLOR O The city should have some power

they were in a position to do nothing in the evidence. Some were certain that Grimshaw had taken the pipe, while others were equally certain that he had not, as they maintained he was not there at the time the other witnesses said he was.

Man Chong and Thomas King were each fined for taking swill through the streets between 6 a.m. and midnight, they should be responsible to the people, and that they should be responsible to the people.

Mr. Maclean objected that both the Maclean objected that both the streets between 6 a.m. and midnight. The Chinese paid \$20, and \$10.

Driving over Rock Bay bridge at a greater rate than four miles an hour is prohibited, and W. Golden, a teamster, who exceeded the lawful rate, paid a \$10 fine this morning. Frank Maniais, an Italian, who is charged with having received \$50 to pay to a lawyer and who kept the money, was charged with fraud and was remanded until Thursday.

Before Police Magistrate

Tony Gillen whose attempt at suicide Tony Gillen whose attempt at suicide last week was unsuccessful, was sentenced to six months' imprisonment. Gillen has been in the hospital for some days from loss of blood. When found at the back of an hotel with a large wound and considerable blood about his clothes he was muttering that someone had attempted to kill him. Today he denied that he was being mugdered and admitted having cut himself. He said that when drut. he always He said that when drut. he always

parlors in the city.

The boat in which the couple were was a light row-boat equipped with a rudder. Mr. Ransom said in his evidence that Miss Friend was sitting in the stern of the boat but was not using the rudder. He believed the accident occurred from her turning at the same time he turned to look behind him. The weight of both was by that means shifted to the side and bore the boat down below the water edge. It was very dark at the time the fatality occurred. Miss Friend struck out in the water and he thought she was swimming, but now believes she was struggling.

The acquaintance between them had

or way company had torn up the street, although it had been over a year since the council started the paving. Between the council started the paving Between the entire paving had been laid when the electric company suddenly notified them that they were going to tear it up and lay a double track along the street. The work was now partly completed, but the city had no power to say to them when it must be finished. It might be done this year or next as far as the city's power went to control the company.

Another matter to which objection might be made was the placing by the electric company of high tension wires along the public highways. These are being erected along the public highways from Jordan river; the city solicitor had advocated preventing the company in question from putting up the wires in the manner which they are doing, but the city found that by its charter they were in a position to do nothing in the matter.

With reference to the election by the

NEW RULES FOR TRAMCAR SERVICE

ARE ANNOUNCED BY ATTORNEY GENERAL

Will Greatly Conduce to the Safety and Convenience of Travelling Public

Cars in future must have doubl

Cars must display "car full" sign

Cars must be standardized.

Cars must be standardized.
Bottom step to be not more than sixteen inches from the ground.
Motormen and conductors must pass an examination for fitness.
A number of changes designed by the government to aid in the comfort, convenience and safety of passengers on government to aid in the comfort, con-venience and safety of passengers on the B. C. Electric Railway Company's cars, have been ordered by the attor-ney-general as the result of experience gained by the observance or otherwise, of the present rules and of conferences with the government inspector of tram-ways and with the management of the company.

company.

All cars must in future be equipped with double trucks. No more single-track cars will be allowed, because they are difficult to control and therefore unsafe, Cars of this kind have already been done away with on practically all the street railways of the continent, being replaced with more modern equipment as they wore out. The B. C. Electric has been in the same position as other companies in this respect, and has not of late purchased any cars of this character.

Gates For City Cars. Gates For City Cars.

City ears must be equipped with platform doors or gates, so that when they are closed the platform will not they are closed the platform will not be accessible to the public from the outside. The conductor will thus have absolute control as to the number of people who can get into his car. When the car is full the gate will be closed and a notice "Car Full" will be posted in a conspicuous place. To guard against any difference of opinion as to whether a car is full or not, it is further provided that a car shall be deemed full when the seats are all occupied and there is one additional passenger to each four square feet of standing room. The attorney-general, passenger to each four square feet of standing room. The attorney-general, after consultation with experts, has concluded that this is a sufficiently liberal allowance. Each car will be required to have prominently displayed at all times a notice telling what is its carrying capacity. The conductor will have control of the operation of the gate and nobody will be able to get in or out unless he operates it. This system is expected to do away with accidents caused by impatient people jumping on or off the platform while the car is in motion. It is contended also by Mr. Bowser that it will do away with the annoyance of having to stand on the street corners, because nd on the street corners, becaus the company, in order to make money, will be compelled to have more rolling stock. The attorney-general says that experience in many cities, notably in

Near the existing railway service. Reply giving full particulars in first letter to

Box A 8785 Times

Seattle, has shown that the company can make more money by having plenty of cars than by crowding; in other words, that people cultivate the street car habit if they can ride com-Must Be Standardized.

Must Be Standardized.

The cars will be required to be standardized. With this object in view, all plans for new cars must be submitted to the tramway inspector and his approval secured with regard to seating capacity, dimensions, floor space and other details. The company will not be allowed to put on any new cars without—first securing the inspector's approval of them.

The height of the bottom step of the car must not be more than sixteen inches from the ground.

No person will be allowed to ride on the bumpers or outside the gates, and for any infringement of this rule the company, the conductor and the person riding will be prosecuted.

Examination For Fitness.

The Conditions There

The Kootenay country was never in a more prosperous or promising condition, and that, satisfactory state of affairs is reflected in Nelson, where considerable building activity prevails and where business is on an excellent footing, "remarked W. Garland Foster, menaging editor of the Nelson News to a Times representative yeasterday:

"miner is showing splendid results, he added, "and the various companies are delighted with the outlook. There added, "and the various companies are delighted with the outlook. There are represented to be a word of good times spreading all over the district, which is shared to a liberal extent by the companies operating in the vicinity of Nelson. In the boundary a similar condition prevails,"

"The B. C. Copper Company is paying substantial dividends while—the Granby people have been able to devote a very large sum out of their revenue to the development of their properties at Granby Bay, Portland Canal.

"But there is another element in the Kootenay district, especially in the lake region, which is rapidly becoming an important factor in the development of the country, and that is the growing farming industry, returns from which are beginning to come in. We can observe this in Nelson, which has become a distributing point for the various fruit-growing communities."

Mr. Foster paid a warm tribut to the ability and sterling worth of J. S. C. Fraser, for years manager of the Bank of Montreal in Nelson, who has severed his connection with that branch to succeed Mr. Galletly as head of the Victoria office.

Mr. Foster paid a warm tribut to the last of the Victoria office.

Facing "Uplands" on beautiful Cadboro Bay. The highest class of waterfront residential property at a fraction of the cost of similar properties. Level, clear lots of 60 feet frontage on the bay, with average depth of 175 feet, commanding the most surpassing views of sea and mountain; from \$1,500 up, easy terms.

The time will come---and soon---when you will long for just such homesites as these, and you won't be able to buy them for love or money. among the first purchasers to-morrow morning!

If there were no other reason, the fact that "UPLANDS" (probably the most perfect and highest class residential subdivision in Canada) is situated on Cadboro Bay, an easy 15 minutes' walk from our property, would be ample eause for believing that this district will mark the apex of fine residential property in a very short time.

"Olympic-View Park" is the pick of the waterfront beyond "Uplands." It lies in the direct path of progressive development. It is well known that the car line to "Uplands" will be completed as soon as possible, and, in any event this will serve Olympic-View Park satisfactorily. However, it is practically assured that within a short time this car line will be extended, giving Olympic-View Park and the surrounding district the service required as they become better settled. The new Cadboro Bay hotel which is just ready for opening, and which will become a popular place at once, is only a stone's throw from Olympic-View Park, and the Golf Links is less than 15 minutes' drive distant.

The character of the Olympic-View Park waterfront is exactly similar to that of "Uplands." For years it has been used by lovers of natural beauty as a summer camping ground. Like the "Uplands," it could not have been arfrontage is becoming rare and very valuable. The shores of Olympic-View Park slope gradually and gracefully up from the water. On a few of the lots there is a little scattered rock, near the beach line, but on no lot is there any rock that will interfere with building operations, and for the most part the soil is deep and rich.

Lots in Olympic-View Park that do not possess waterfrontage, have waterfront rights, and by reason of the natural slope of the ground, they overlook the waterfront lots and so command an unobstructed view of the straits. These lots are particularly fertile and clear. Every one of them is level and free from rock, and many of them are already planted in the finest kind of fruit trees and small fruits, all bearing heavily.

Every Olympic-View Park lot is large and well located. The frontage is never less than 60 feet and the depth averages 175 feet. The view everywhere is perfect, the Olympics in the far distance, the gleaming straits between, numerous small islands and wooded points along the adjacent shore lines, and opposite, across the horseshoe bay, the magnificent shores of "Uplands," where ranged more perfectly for residence if it were man-made. Property all about some of the finest homes in North America will soon be built. Beyond, the coves has been snapped up, for people are beginning to realize that close-in water- and indents of Oak Bay with its lovely residences and waterfront gardens.

There will never be another such opportunity as this to secure Cadboro Bay waterfront homesites. The sale begins to-morrow. No reservations. First come, first served. Maps, price lists, views and full details at our office or by mail on request.

ROYAL COMMISSION

BY FRANK HIGGINS ON MUNICIPAL GOVERNMENT

He Advocates Appointment of Commissioners by Government Subject to Recall

really shareholders of the municipality, we elect a chairman and a board of directors to govern whom we call mayor and aldermen, the same as any other large corporation does to manage it is affairs. That public service corporations on the whole are well manage and successful. Why should not much provide the same and the same allower of the same and the s

of a minority of the citizens. Directors

along proper lines if they had to? I think not.

Another point taken, is that a government in a provincial sense elected by popular vote, has proved a success, therefore, it follows, that it is possible to make a municipal government elected by the same method successful. If a probe is gently inserted into this assertion, it will disclose its fallacy. Only a few years ago in British Columbia, before the province began to expand, it was sufficient for members of the cabinet to devote their spare time to running the country, but since the province has begun to grow, cabinet ministars have had to devote practically all their time to the affairs of government, until now there is no class in the community harder worked than ministers of the crown.

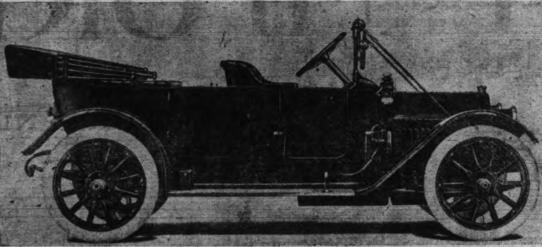

The present system under which a

ment Subject to Recall

The toyal commission on municipal successful in the parliament buildings that the citizens are gradually dividing into two camps. One camp advocating government, and placing over them a body called a board of control. It is impossible for me to say an expect the successful in the parliament of government, and placing over them a body called a board of control in the importance of the parliament of the

Chalmers Motor Cars 1913 Models

"Thirty-Six" .. \$2750

"Thirty-Six" \$2,750

WE announce for 1913 big improvements in Chalmers cars in comfort, convenience and appearance. For it is along these lines that the greatest advances in automobile building are to be made.

Few changes have been made in our chasses. The me-chanical features of our cars have been right from the be-ginning. Satisfactory service in the hands of 27,000 owners Here, then, are the principal additions and improvements on Chalmers 1913 cars:

EASIER RIDING QUALITIES

Luxurious comfort is built into every detail of Chalmers cars. The Turkish cushions, 11 inches thick, are soft as a down pillow. They are the highest grade automobile cush-tons made.

The upholitery is of the luxurious overstuffed type. All seats are wide, filled with high grade hair and covered with heavy, soft pebble-grained leather.

The long wheel base minimizes road shocks. Big wheels

nd tires, and long elastic springs make all roads smooth.

MORE CONVENIENCE FOR OPERATOR

Electric Lighting, the last touch of luxury, is regular equipment for 1913 on the "Thirty-Six" and the "Six." The Gray & Davis system which we use is featured on some of the highest priced cars; we believe it is the best lighting system built.

system built.

Just touch a switch on the dash and you can light at will head, tail and side lights. No hunting for matches or gas tank key. No getting out of car in dust or mud.

And no more cranking. The Chalmers air pressure starter made 1912 a self-starter year. A season's use has proved this the simplest and most efficient starting device yet designed. You simply press a foot button on the dash and compressed air, released from a tank beneath the car turns the motor over until it starts on its own power. No danger. No strain on motor.

danger. No strain on motor.

Continental demountable Rims reduce tire trouble to the minimum. Occasional punctures you may have are no longer a serious inconvenience.

On the new style Chalmers dash is carried every control and indicator—ignition switch, self-starter button electric

light switch, speedometer, gasoline pressure pump, carbur-etor adjustment, air gauge, oil sight feed, priming lever, horn buib—all easy to see and easy to reach.

ADDED BEAUTY

Chalmers cars have always been known for their "looks."
For 1913, they are even more beautiful than in the past.
Flush-sided metal bodies have the graceful bell-shaped
back. Dash is of one piece with body. Top of hood and
sides of body form one line from radiator to rear seat.
Handsome nickel trimprings will be recorded.

Handsome nickel trimmings will be regular equipment.

Leather lining throughout the body and on the dash leaves nothing to scratch or mar. Twenty-one coats of paint and varnish give a finish that cannot be surpassed.

We have perfected Chalmers cars along these lines, we

believe to a greater extent than anyone else, because for the last ten months we have directed all our efforts to mak-ing our cars even more comfortable, more convenient and more beautiful than ever before.

The Chalmers "Six," \$3,400--A Maximum Car

Quantity production and increased manufacturing facilities make possible this unprecedented price of \$3400. Here is a tried and proved six-cylinder car of the finest quality-of Chalmers quality-a thoroughly high grade six-cylinder car at a medium

In addition to the big features of Comfort, Convenience and Beauty listed above, please note the following:

The "Six" motor is a giant of power. Though rated at 54 hp., it actually develops 80 to 79 hp. The long stroke motor—4% in. bore x 5% in. stroke—gives it a strong "pull" in sand or mus or on the steepest hill. It can be throttled

n to a walking pace on high gear. It picks up instantly Chalmers four-forward speed transmission provides a gear for every requirement. It enables you always to se-lect the gear that will carry your car through any kind of going in the quickest time and with the least strain.

Big wheel and tires—36 in. by 4½in.—insure easy riding and cut down tire trouble and expense. Wheel base 130 in.

15 NOTABLE FEATURES OF 1913 CHALMERS

Electric Lights Chalmers Self-starter Turkish Cushions Long Stroke Motor Eleven-inch Upholstery Speedometer Demountable Rims Nickel Trimmings Improved Springs Increased Wheel Base New Flush-sided Bodies Big Wheels and Tires Dual Ignition System Carburator Dash Adjustment Four-forward Speed Transmission

The "Thirty-Six," \$2,750--With Fine New Features

Striking improvements and added features make the 1913 "Thirty-Six" more than ever an ideal all-around motor ear. It has power in abundance, speed, hill-climbing ability and marged and area. hill-climbing ability and rugged endurance to meet the utmost demands.

The wheel base of the 1913 "Thirty-Six" has been increased to 118 inches, which still further improves its easy riding qualities.

Luxurious Turkish cushions, 41-inch upholstery (the rame quality as used on some \$5000 cars), tilted seats, all give the greatest possible riding ease. Seats are exceptionally compared to the compared to

ally roomy.

Big 36in. x 4in. tires carry the car smoothly over the roughest roads. The "Thirty-Six" is over-tired, which means less tire expense. Springs are unusually flexible.

ELECTRIC LIGHTS ON THESE CARS.

Full electric lighting by the Gray & Davis system is furnished on the "Thirty-Six."

furnished on the "Thirty-Six."

Chaimers self-starter, simplified and improved, is furnished on the "Thirty-Six" of course.

A reliable Speedometer, a jewelled, magnetic instrument, is regular equipment.

1913 bedies are greatly improved in design and finish. They have the integral cowled dash, on which are carried all controls. Everything for the handling of the car is within easy reach.

Note the wide doors, smooth, straight sides, rounded back, graceful cowled dash, elegant appointments.

MECHANICALLY CORRECT.

MECHANICALLY CORRECT.

This car will do your work with power to spare. The splendid long stroke motor—14 in. x 54 in.—has wonderful pulling qualities. Quiet and smooth running at all speeds. The four-forward speed transmission is one of the distinctive Chalmers features largely responsible for the success of the Thirty-Six* last year.

Other Chalmers features which made this car such a marked success are retained—such as dual ignition, demountable rims (five), genuine honeycomb radiator, dash adjustment for carburetor, large brakes, frame and steel connections of extra weight and strength.

The 1973 Chalmers "Thirty-Six" offers you every motor juxury—at a medium price.

The New Chalmers "30"-Self-Starting, \$2,300

With improved motor, Chalmers self-starter, 34 in. x4 in tires, demountable rims, larger brakes, beautiful new flush-sided body, the 1913 "30" at \$2300 is a greater value than ever before.

The price includes also gas lamps and oil lamps, Prest-O-Lite tank, dual ignition, full tool equipment. For the man who wants a light, fast, low priced but classy car, the 1913 "30" is the best buy ever offered. Two body types are offered: 5-passenger touring car, \$2300; 4-passenger torpedo, \$2300.

Fixed Chalmers Policy-

Quality Prices at Medium Prices For 1913 we are adhering to our established policy of al-ways giving the greatest possible value for the price. We have incorporated in our new models, at medium prices the features which characterize high priced cars and many other features not found on other cars of any price. Chalmers cars have always been known as quality cars. We have never built a "cheap" car, but always high quality cars at medium prices. Big production has enabled us to build such cars at lower cost than could anyone without our

1912 OUR RECORD YEAR.

1912 OUR RECORD YEAR.

This past year, 1912, was the best year we ever had. It set a new Chalmers record. Our business showed an increase of \$3 per cent. over the season of 1911.

We believe that our business will further increase as people appreciate quality at medium prices instead of quality at high prices or mere quantity at low prices.

We believe the more automobiles come into use, the greater will be the conviction that it doesn't pay to try to save \$300 to \$500 on the original price, and buy something merely because it is offered at a low price.

Medium priced cars of quality—not only ours, but other good medium priced cars—offer the best value for the money in the long run, and you don't have to run them very long to find it out.

BUILT IN OUR OWN SHOPS.

Chalmers cars are built by Chalmers workmen in Chalmers shops under Chalmers inspection. We build our motors, transmissions, axies, self-starters, steering gear, and other important parts. We cut our own gears; heat-treat our steels. We even have our own foundry.

No automobile manufacturer builds in his own plant more of the vital parts of his car than we do. No motor car factory is more completely equipped with new machinery.

Experts tell us no car is built with greater care or more skillful workmanship than the Chalmers; none is subjected to more careful and painstaking inspection.

BACKED BY SOUND GUARANTEE.

Chalmers cars are built and guaranteed by a company of the soundest financial standing. We have a plant covering 30 acres of ground and have \$6,000,000 invested in our business. We have made this great investment because we expect to be in this business permanently, and we are convinced that permanent business can only be built up where a manufacturer makes his own parts.

Making our own parts mean greater accuracy in our cars and greater value for you. The saving we make by eliminating parts-makers' profits, goes into added quality. We have prepared a book about the Chalmers factory. It tells, in an unusually interesting way, how Chalmers cars are made. Write for it.

ORDER NOW FOR EARLY DELIVERY.

Now is the time to order so that you can get the use of your car during the best motoring season.

See these cars now at our showrooms. If you look them over carefully, we are sure the cars will more than bear out every claim. Again we say, compare the

STANFORD PARK UPLANDS IN MINIATURE!

THIS is our first Subdivision. A gentleman who has bought and sold considerable property through us during our four years' career in Victoria as a real estate firm, in discussing "Stamford Park" with us a few days ago, paid us a compliment that we appreciate. He said: "If you are as conscientious in this as you have been in all the dealings I have had with you, your customers should do well.

That sounds the keynote of our business policy. For four years we have worked hard to build up a real estate business on sound, square lines. In some instances we have lost money by following this principle; but, on the whole, we have gained by it, and now we are reaping a material reward in the added respect and confidence of a wide range of friends. In "STAMFORD PARK" we have a property which we can conscientiously "push" for all we are worth. We spent a long time in selecting it, and an even longer time in planning its subdivision and settling what we felt was a fair price per lot. Now all arrangements are complete and we are offering this magnificent residential property to the public. "STAMFORD PARK" will rest wholly on its own merits. It will not be sold on the strength of any "ifs" or "whens." We do not care to have anyone buy without seeing the property for himself, and, to facilitate this, we shall take all prospective pure lasers by motor to view "STAMFORD PARK" at any time convenient to them.

"STAMFORD PARK" was described enthusiastically by one of the first visitors we took to see it as "Uplands in Miniature," and this phrase fits its beauties so aptly that we have adopted it. The property lies parallel to the Cedar Hill Road, on the circle marking two miles from the centre of Victoria. The total number of lots is only 84, and the average size is 50x122 - 50x136. There is not a poorly situated lot in the subdivision, and, of the entire 84, there is only one that can be called low. The price on this has been reduced accordingly. All streets through the property are full width, and the plan is so arranged that a circular drive of exceptional charm may be laid out at the north end at comparatively small expense.

"STAMFORD PARK" is intended for the better class of residences, although the prices have been fixed so low as to render it available at the present time for those who do not care to expend a large amount for future homesite purposes. It can be said with absolute truth that there is no prettier place for a delightful home than "STAMFORD PARK." The character of the property is strongly suggestive of "Uplands." The ground rises in a

gentle slope from south to north and provides lots of almost every desirable variety.

Oak trees, from saplings to veterans of many decades, are scattered in profusion throughout the subdivision, and every lot has its share. Never so thick as to be cumbersome, these beautiful oaks provide natural park vistas strongly suggestive of some Old Land estate. Here and there clumps of firs relieve the picture and lend an admirable touch to the appearance of the property as a whole.

While at no point is "STAMFORD PARK" less than five feet above the level of all surrounding property, it rises gradually from the southerly end to the northerly end. Thus the view from every lot is protected and can never be obstructed. From the lots at the lower end the prospect commands a wide range of country, and from the mid-section and upper end one can look out over the southerly lots. To the northeast of "STAMFORD PARK" lies Cadboro Bay and the "Uplands" property. From our lots all this section is visible as if it were a map lying at the visitor's feet. To the south Oak Bay is seen and the Straits of San Juan glistening in the sunlight like a silver shield. Victoria stands out prominently in the picture, and, far beyond, as a background for it all, lies the great Olympic Range, its snowy crests agleam like brilliant tiaras. From the northerly portion of "STAMFORD PARK" and from the mid-section, one looks down on the adjacent countryside as if from an aeroplane, and, by simply turning from left to right, sweeps the whole stretch of beautiful scenery from Cordova Bay to Esquimalt Harbor in one vast panorama. Yet the resident in "STAMFORD PARK" will be sheltered from all severe winds and, even at the highest point, will reach his home by means of an almost imperceptible grade.

Reasonable building restrictions will be enforced in "STAMFORD PARK" merely as a protection to those erecting fine homes. The terms and the prices are so reasonable that this beautiful property will be within reach of the most modest income. Do not fail to watch for the first advertisement on Wednesday morning next, containing details of price, terms of payment, etc.

The sale of "STAMFORD PARK" lots will begin on Wednesday, August 14, and owing to the limited number of lots it is essential that prompt action be taken by intending purchasers.

Motors will leave our offices at frequent intervals to carry prospective buyers.

HON, J. M. WILSON HERE

Prominently Connected With Big Commercial Interests __ First Time in B.C.

Hop. J. M. Wilson, the last senate to be appointed under the Laurier covernment in the Province of Quebec, arrived in the city yesterday in the course of a holiday trip which he is taking in western Canada, and on which he is accompanied by his two daughters and his son-in-law, R. G. Dawson. Senator Wilson succeeded the late Sir George Drummond, president of the Bank of Montreal, in the senate, and in addition to his political office is associated with a number of big business enterprises. Among these are the Canada Light & Power Company, of which he is president; the wholesale firm of Bolvin, Wilson & Company, of Montreal; and the Montreal Tramways Company, of which he is president; course of a holiday trip which he is

Company, of Montreal; and the Montreal Tramways Company, of which he is one of the directors.

Although Senator Wilson is proud of the wonderful growth of the capital city of the province which he represents, he is quick to acknowledge the unexpected nature of the development of western Canada. Hitherto he had not travelled further west than Banff, and expresses himself as astonished at the size and activity of our sea-ports. In Montreal a big dry dock is being constructed, and this when complete, he pointed out, would be large enough to accommodate the largest vessels which come into that port, such as the Empress of Britain, which, when damaged recently, had to be repaired in the best way facilities permitted, and then sent over to Liverpool to be completed. As a French-Canadian, Senator Wilson strongly objects to the pronouncements of Mr. Bourasas, the 1st French-Canadian people, because of his long study of their history. The delegation pleaded their history. The delegation pleaded their history.

Mysticism is as old as the world, and one of the most mystifying vaudeville performances ever presented is that of this man of medium height lifting a plano from the stage and whirling it through space without apparently touching it. This is all accomplished while Onalp is seated at the plano playing a dreamy air. Suddenly man and plano and plano stool begin to float around like a soap bubble. It is one of the most startling exhibitions introduced for vaudevillians, and many will guess many solutions. To the Woodrow Wilson Club of Corange, N. J., the governor man and plano and plano and plano and plano and plano and plano stool begin to float around like a soap bubble. It is one of the most startling exhibitions introduced for vaudevillians, and many will guess many solutions. To the mystery.

Another feature act is that of Lee Tung Foo, the Chinese vocalist and comedian. Here is a Chinaman with as much personality and temperament as a prima donna and more tuneful notes than some of them have. He is cleverly comic, and versatile in the bargain, singing a song in Chinese, then the Armorer's song from "Robin Hood" with a booming basso, and finally "My frish Rosie" in a baritone in both English and French. For encores he throws in a German song and then a big laugh, a Scotch song in Harry Lauder make up. Those who agree with Bret Harte that a Chinaman has few possibilities outside of dark ways and vain tricks will wonder over Lee Tung Foo.

Helen Primrose, a dainty and talentedy oung performer with a charming stage appearance, offers a brilliant singing and dancing number with some good characterizations thrown in. Miss Primrose is a clever young woman with some nice goxms which will interest the feminine portions of the audiences.

Jack Manly and Charlie Walsh, two singing and talking comedians as birioht as any who have come aver the succession of the s

another bright act and a bounding tire exhibition by Granto and Maudounds off a good bill. They twist and comersault on a bounding wire in re-narkable manner.

Majestic Theatre.

The greatest fleet in the world's fistory assembled in the solent; July 11, 1912; reviewed by Rt. Hon. R. L. Borden and the British admiralty. This great naval review will be shown at the Majestic to-day and Tuesday in addition to the regular programme. "An Outcast Among Outcasts," is a good melodramatic picture with strongty worked out and very interesting contrasts. The picture's chief interest comes from the placing of four yoggmen hoboes beside a "blanket stiff," or tramp, who carries his blanket stiff, and the logical development of the denouement from it. "For the Honor of the Name," is a well made picture, full of beautiful scenes, and with an extremely artistic closing picture that in its untrammeled compatition." picture, full of beautiful scenes, and with an extremely artistic closing picture that in its untrammeted composition, its graceful lines and drapery, forcefully remind one of such paintings, minus color, as "The Madonna of the Tub," by Raphael, "Honor and the Sword," is a strong dramatic story, "When Daddy Was Wise, Oh, Papa!" They fooled him first, but he "got wise," acknowledged the joke was on him, consented to his boy's marriage, and did the handsome thing.

DEMOCRATIC PARTY UNITED, SAYS WILSON

Wilson strongly objects to the prenouncements of Mr. Bourassa, the name of medium height iffting
Wilson strongly objects to the prenouncements of Mr. Bourassa, the name of medium height iffting
wilson strongly objects to the prenouncements of Mr. Bourassa, the name of medium height iffting
wilson foreigners, and that he had always felt a high regard for European people, obscusse of his long study of the state of the two provinces of an exact of the long study of the same as loyal as any in the Dominion, and the pronouncement was quite without foundation, and distanted to the provinces of the beautiful to nearly every section of that province.

In the Rast, said Senator Wilson, there was great financial optimism, and his visit to the Pacific coast had convinced him that the point of the optimal to the older provinces in this respect is endorsed by the feeling in the spirit of the west, and that the Dominion generally was lookting toward even more prospectors times.

The Empress Theatre.

The Empress Theatre.

The headline-feature at the Empress
theartre this weke is Onaly in the Hindu Mystery of the "Somersaulting Piano." This turn was the feature of the New York Hippodrome for two seasons Mysticism is as old as the world, and one of the most mystifying vaudeville performances ever presented is that of the performances ever presented is that of the performances are presented is the action of the many and the plant of the performance of the New York Hippodrome for two seasons Mysticism is as old as the world, and one of the most mystifying vaudeville performances ever presented is that of the performances are presented is that of the present of the New York Hippodrome for two seasons plant from the stage and whirting it of the performances are presented is that of the performance are presented as the best of the performance are presented as the season of the many and the performa

All this pays the manufacturer at the produces good results he profits by singing and talking comedians as bright as any who have come over the Sullivan & Considine circuit contribute benefit of the second and third pur-

SAANICH LINE.

Whole Route Cleared—Tracklaying In Progress All Along at an Early Date, It is Promised.

Mr. A. T. Goward, local manager of the B. C. Electric Railway, with other Mr. A. T. Goward, local manager of the B. C. Electric Railway, with other officials of the company, has just concluded a visit of inspection of the work on the line which is being built to the end of the Saanich peninsula. Seen yesterday by a Colonist representative, Mr. Goward said that excellent progress was being made with every detail of the big undertaking.

The whole of the route has been cleared, nearly all of it has been graded and all the material, ties and rails, are on the ground. Tracklaying over the whole of the twenty-two miles should be in progress at a very early date.

date.

Asked as to when it might be anticipated that the line would be ready for operation, Mr. Goward said it was planned to be able to operate the first cars not later than the first of the new year. Every effort would be expended to ensure that this would be accom-

plished.

The work of double-tracking Hill-side avenue as far as Cook street is

AP

A R

MK

Is on this New Electric Line.

Take the

This subdivision made a record in rapid sales when it was placed on the market a few weeks ago. In less than one month after advertising began, 250 lots were sold. Since the advertising campaign closed, the sales have continued-largely on the reputation given the property by the early purchasers—at a daily average rate that is a remarkable testimony to the appeal of these lots. The greatest single day's sales las, week totalled eleven lots.

There were 583 lots in "PANAMA PARK" when we started selling. THERE ARE ABOUT 100 LEFT. These lots are just as good as any in the subdivision, and will bring much better prices this autumn. THEREFORE WE MAKE THIS ANNOUNCE-MENT FOR THE BENEFIT OF THOSE WHO STILL MAY WANT TO BUY, THAT ON SEPTEMBER 1 PRICES ON ALL UNSOLD LOTS WILL BE ADVANCED FROM \$25 TO \$50 A LOT.

"Panama Park" Prices at Present Are the Original Prices

QUARTER-ACRE LOTS AT FROM

\$250 to \$450 Per Lot

On Easy Terms of \$25 Cash and \$10 Per Month

"PANAMA PARK" lies on the B. C. Electric Railway's new Suburban Line, which will be opened by the first of the New Year, if not sooner. The property is magnificently situated. It is the same distance from the heart of Victoria as Oak Bay and near churches and schools. It lies in the section where development is now proceeding faster than in any other section adjacent to

"PANAMA PARK" streets and sidewalks were all made and laid by us and cost purchasers of lots not one cent. This work was completed while the property was first selling. Many houses have been started since. Not a few of the early purchasers have sold their original lots at a good profit and have bought again. Yet here is the final opportunity for YOU to buy just as good lots at ORIGINAL PRICES.

ON THESE EASY PRICES AND VERY EASY TERMS YOU ARE BUYING FIRST-CLASS RESIDENTIAL PROP-ERTY AT SMALL TOWN PRICES. THE CHANCE WILL NEVER COME AGAIN IN VICTORIA. WHEN THE STREET RAILWAY LINE IS OPENED, THESE LOTS WILL ALL ENHANCE IN VALUE AUTOMATIC ABLE TO SELL AT A GOOD ADVANCE—IF YOU WANT TO.

DON'T PUT IT OFF. DON'T BUY WITHOUT SEEING. WE WILL TAKE YOU OUT BY MOTOR ANY TIME YOU SAY. IF YOU CANNOT COME PERSONALLY, USE THE COUPON AND RECEIVE FULL INFORMATION, ILLUSTRA-TIONS AND PLANS OF "PANAMA PARK."

C. P. R. TOUCHES **NEW HIGH RECORD**

List Generally Stronger in-New York Steel and Iron Market

(By Courtesy F. W. Stevenson & Co.)

New York, Aug. 12 - C. P. R. sold to day

at 2812, a still higher record, but towards
Sloss
the close broke two full points. The list

S. P. at 2812, a still higher record, but towards the close broke two full points. The list generally was stronger, and sentiment taken in the bulk shows improvement. An encouraging feature of the iron and steel marked and usually a barometer of conditions in the industrial world is a considerable inquiry out for machinery. New York machinery dealers report inquiries for from \$100.000 to \$125.000, largely for use of railroads. Included among those roads inquiring for new machinery are the Virginian Railway. Ealtimore & Ohio is also preparing a list, and this is expected in a week or so. Pennsylvania Railroad that several inquiries out for forging machines, which may require an additional list.

Besides, the railroads there is a considerable demand by industrial concerns, including the General Electric Company, for machinery for extensiong more than replacements. The mere fact that inquiries for inachinery are increasing is encouraging to the industrial concerns, ingit to the industrial concerns, including the General Electric Company, for machinery for extensiong more than replacements. The mere fact that inquiries for inachinery are increasing is encouraging to the industrial and business world, as this is practically, the last phase of the iron and steel business to pick up.

Exports of machinery for June made a new high record, and while no official figures for July have been made public by the government it is expected that that month will show an increase over June.

Visible supply: Wheat, decrease, 758,-600 bushels; corn, increase, 401,000 bushels; oats, increase, 2000 bushels; oats, increase, 2000 bushels, Missour, Pacific earnings for the first week in August Lotalled 31,185,933, an increase of \$184,898. From July 1st, \$8,185,202, increase \$774,398.

Ex-div. to-day, St. Paul com. 23 per cent.; do., pref., 33 per cent.; Amn. Smelt. pref., 13 per cent.

Earnings of Northern Pacific for June, net income, \$1,484,219, increase, \$47,509; net for fiscal year, \$21,839,161, decrease, \$485,596.

Consols advanced 3-18 in London.

Cotton opened low in Liverpool.

A Chicago dispatch says: Indications are for fine weather for the week favorable to wheat crop and big corn states.

London silver, \$28,

Estimated hog receipts at Chicago tomorrow, 15,000.

Copper was up almost a pound in London.

John D. Ryan, president of the Amaj-

New York, Aug. 12.—Copper, spot, \$17.25 \$17.50; tin, \$45.40@\$45.80; lead, \$4.45@\$4.55; pelter, \$6.75@\$6.95.

don. John D. Ryan, president of the Amalgamated Copper Co., returned home from Europe on Saturday and expressed himself as thoroughly satisfied with the conditions pertaining to the copper market throughout the world. In speaking of the increase reported last month in copper stocks, Mr. Ryan sald it was not anything like adequate to supply the demand and that he would like to see a vastly greater increase.

We have the pick of the market in Oak Bay properties. Give us a call. Owners, list your property with us, we have the buyers.

and Cottage

Some housewives, harrassed to the verge of nervous breakdown by trivial annoyances, devote no real attention to the "buying" problem. They buy when they HAVE TOperhaps at "the nearest place"-when, very likely, better values and lower prices are advertised by three or four differ-

The housewife who does not give as much attention to a study of the ads as she gives to other things in the daily routine, that are of half as much importance, will never find any real interest in the business of home-making.

The ad-studying housewife buys INTELLIGENTLY. She knows her "market" as well as any broker or merchant knows his. And she will never stop to tell you how "hard it is to find anything in the stores nowadays that one wants and can still afford to buy." For, to an ad-reader, that is not such a hard task!

EXTENUATING CIRCUMSTANCES.

To the Editor: In your issue of Saturday last, as well as that of your contemporary, the Colonist, a reference is made to the new pavement on Gladstone avenue in such a way as to leave the impression that serious damage had been done the pavement recently laid there by the setting of five telephone rolls.

The facts are that when the city was eady to pave the street the Telephone Company were out of poles of the re-juired dimensions.

quired dimensions.

The setting of poles after a street has been paved does not mean that the pavement is thereby injured or weak-most. The pole simply occupies the ned. The pole simply occupies the position it would have occupied it set before paving. A round hole to fit the pole is made in the cement at required distances, and the pole is set into it. I am sorry that any anxiety or mis-apprehension respecting the condition of the street should have been aroused by reason of pole shortage. However, the pavement has not suffered injury.

R. B. McMICKING, Victoria, B. C., Aug. 12, 1912.

NO REST FOR THE WEARY.

and destruction that has been noise and destruction that has been going on upon a vacant space of less than 80 yards square, including Gladstone and Vining streets, that shocks artistic taste and "murders sleep," within a radius of about half a mile. Fourteen hammers pounding away on lumber and corrugated from before, during and after fegitimate hours, and often well into the dark hours. This music (on a smaller scale) is not always confined to week days. Then there is the blasting, which goes on for eight hours, frequently, On Gladstone avenue they are adding to the stone avenue they are adding to the turmoil by tearing up the new side-walks and planting poles for wire that, properly speaking should be under ground. But on Vining street they have cut down valuable oaks, and one in particular, against which there has been no kick for about 150 years, as it would encroach a little on the new sidewalk!

I plaintively appealed to the woodman to spare that tree, but he guessed it would have to go, as it was supposed it would interfere with "drunks going

MUNICIPAL SWILLIAM.

swimming could be acquired by everybody. The little lad who rolled off a log at Cordova Bay was drowned within thirty feet of the shore. A young man lost his life by the capsizing of a boat at the Gorge, and was not far from dry land either, and the engineer who fell overboard from the tug Myshould issue a proclamation calling on the electors to vote on the question at been able to sustain himself afloat for the brief minute and a half, which was time required by his shipmates to reach the spot in a rowboat. Due to the overturning of a canoe on Saturday last a young girl was drowned in the waters of the Arm, and similar occurrences are quite frequent where a little natatorial skill would serve until help arrived.

It to lodge a petition with the provincial secretary requesting that a vote of the commissioners, naming them, should be retained in office. Within ten days of the receipt of the provincial secretary squared in the continuous continuous and in this province, and could be simplified and improved on, and it must be remembered that the governing power in this province, and could be simplified and improved on, and it must be remembered that the governing power in this province at proved on, and it must be remembered that the governing power in this province and proved on, and it must be remembered that the governing power in this province at a tree of the proclamation.

Every householder and license holder as at present defined by the municipal election act, the government headed in as it is, by a wriften constitution.

Whether or not, my personal views on municipal government which I have had for a long time are worthy of consideration, is of course not for me to say; but there are many who

include a number of not and cold, sait and fresh water tub baths, and if ac-commodation be provided for specta-ters at swimming carnivals, aquatic-sports, etc., the revenues would be sub-stantially augmented, and thus the baths become no burden whatever baths become no burden whatever upon the ratepayers. In conclusion I would earnestly urge that the matter of municipal swimming baths be paid the serious attention which, the sub-ject deserves, and be taken up in a broad-minded, public-spirited manne WILLIAM MEED,

CHRISTIAN SCIENCE.

To the Editor:-Christian Science we understand principle are we able to demonstrate good results. Just as a to demonstrate good results, Just as a pupil demonstrates a true understand-ing of the law governing mathematics in the problems he solves. The proofs are so numerous in substantiation of this religion that more than threadbare arguments are necessary to over-throw it. Our critic has chosen the name "Mark Twain" to give weight to

throw it, Our critic has chosen the name "Mark Twain" to give weight to his arguments, overlooking the fact that Mark Twain not only predicted that Mark Twain not only predicted would spread over half the world," but made other strong statements in favor of Christian Science.

A large number of those who have taken up the study of Christian Science have done so simply because it appealed to their sense of reason. After studying but a short time many have noticed doubts and fears removed, and it is perhaps for the abolition of fear more than any other one thing for which Christian Sciencists are most grateful. Job said, "Fear not for the thing which I greatly feared has come upon me." Through Christian Science teaching we learn that we have nothing to fear, but to love God and keep his commandments. If God is the creator of all good, then fear is unreal because it produces discord. By destroying fear in our consciousness, discordant conditions fade into their native nothingness.

Why should not Christian Science practitioners receive a portion of the "medium of exchange" for the time spent in trying to uplift another? Jesus said, "The laborer is worthy of Jesus said, "The laborer is worthy of

"medium of exchange" for the time spent in trying to uplift another? Jesus said, "The laborer is worthy of his hire," It-is necessary at the present time that we live in houses, wear clothes, etc., then why not make necessary provision in that direction. We are told to work out our own saivation. If mortals were not required to make some kind of material sacrifice, some of those seeking help would perhaps neglect to pay in mental currency, viz., thanks.

Practitioners of Christian Science are usually so busy spreading the truth in a Christian Science way that they could not possibly find time to spread the truth as our critic would

have it done, but let it be remembered that the truth is free to all, and can not be monopolised. Spiritual thinkers down through all ages caught glimpees of the truth, but never before was this understanding put into practical form so that an individual might apply it instantly in business or private life to establish harmony until the text-book on Christian Science by Mrs, Eddy was written.

written.
The views of Swedenborg and those of the author of the Christian Science text book are vastly different.
